SOFTWARE ENGINEER

Software Engineer specializing in full-stack and frontend development with experience building scalable, cloud-deployed applications. Skilled in React, Node.js, REST API design, testing frameworks, and cloud infrastructure (AWS, Azure). Strong collaborator in Agile environments with a focus on performance, reliability, and maintainable architecture.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Ember, Redux, HTML, CSS, Tailwind, Material UI

Backend: Node.js, Express.js, Python

Databases: PostgreSQL, MongoDB, DynamoDB, SQL

Testing: Jest, React Testing Library, MSW, Storybook

Cloud & DevOps: Azure DevOps, AWS (EC2, S3, Lambda, API Gateway, SES), Docker

Tools: Git, GitHub, Bitbucket, JIRA, Postman, Insomnia, Amplitude, Dynatrace

EXPERIENCE

American Specialty Health

May 2025 - Present

Frontend Engineer

- Led frontend architecture for four major platforms supporting 100,000+ daily users and 20,000+ programs.
- Built and maintained a modular component library using MUI and Storybook, standardizing UI across multiple product domains.
- Implemented a testing infrastructure (Jest, RTL, MSW) achieving 80%+ coverage and enabling reliable API mocking across microservices.
- Developed advanced GraphQL mock handlers with dynamic responses, latency simulation, and error scenarios to accelerate development.
- Optimized CI/CD pipelines using Azure DevOps and YAML, enabling multi-environment deployments and bundle performance analysis.

Pycube, Inc.

November 2022 - January 2025

Software Engineer

- Built full-stack applications using React, Redux Toolkit, Node.js, and Express with modern state management patterns.
- Designed and implemented REST APIs using Node.js and Express (MVC) with PostgreSQL and DynamoDB.
- Developed cloud-based solutions using AWS (EC2, S3, Lambda, SES, DynamoDB), including serverless data processing pipelines.
- Implemented secure authentication with JWT, API keys, and RBAC; improved frontend performance via lazy loading and code splitting.
- Collaborated with designers to convert Figma designs into production-ready interfaces and partnered with DevOps to enhance CI/CD workflows.
- Participated in Scrum, pair programming, and cross-functional collaboration.

EDUCATION

California Polytechnic State University, San Luis Obispo

Bachelor's Degree in Computer Science

San Luis Obispo, CA

September 2015 - June 2019

Flatiron School

Full Stack Web Development, Javascript and Ruby on Rails program

Online

June 2022 - September 2022
